TRACK FOR
JACK'S FIELD

At a meeting of the board of governors of the A. A. U. held yesterday afternoon it was decided to petition the board of supervisors for an appropriation which will allow of Atkinson Park being put in shape for field and track athletics.

The supervisors will be asked to construct a cinder track and to put in jumping pits.

Atkinson Park is near the Myrtle and Healan boat clubs and when put in shape will undoubtedly be used by a great many youthful athletes who do not have access to Alexander Field or to the Boys' Field.

As an earnest of his home-building intention he has purchased a lot up somewhere near the top of the hill and expects to have his own vine and fig tree under way before very long.

INTEREST IN OLYMPIC GAMES
IS RUNNING HIGH IN SWEDEN

The sixth renewal of the Olympic games of ancient Greece will be held in Sweden next July. The wonderful progress of athletic sport in that northern country has entitled it to a place with America and England on the athletic map. In fact, it seems that in enthusiasm Sweden is going ahead of us.

The stadium now being built near Stockholm will be the athletic center of the world this spring, and on every square mile of Swedish soil athletes are training night and day.

If it is in bone and muscle and sinew and nerve to do it, Sweden will win the next Olympic championship. Or, if it is impossible to defeat the Americans, at least the Swedes will try to conquer the British, just for old times' sake.

Twice Sweden has just been nosed out by England, aided by her colonies. Perhaps in the third trial the luck will change. If it doesn't, it will be no fault of the Swedes, for this is no mere A. A. U. affair with them.

The Government has taken charge of things, and no patriotic war in the olden days ever called out armies of defense filled with greater enthusiasm and determination.

We may go over and capture the world's Olympic championship again, but if we do we'll have to fight for it. This will be no Sunday school picnic this year.

One of our best known professional runners, Hans Holmer, has just made a European trip that included Sweden. Holmer says some exceedingly interesting things—things that tell truer than columns of facts and figures the spirit that underlies the athletic awakening of Europe and particularly of the Swedes.

"One of the largest merchants in Stockholm," he says, "told me that the delicatessen trade is almost ruined there. He said that every healthy man in the country has given up eating the many fancy little 'snacks'—rich little cakes, a thousand different kinds of spicy little pickled fishes, sweet toasts, pickles, cheeses, candied fish eggs and stuff like that—just because they've learned that such food is not intended for men who would become great athletes.

"Every club that I visited had banished the afternoon snack, and all the members who weren't compelled through necessity to wear canes were putting in so many hours either on the running track or in the gymnasium each day, and they were all experimenting with certain prescribed diets that were guaranteed to help them round into condition for the big tryouts next spring.

"Athletics is the whole thing there now. Sweden fairly seethes with athletes too. They're thicker than mosquitoes on the banks of the Passaic River of a late August evening. Everybody, from King Gustaf V down to the lowest peasant in the land, is interested in every detail of the arrangements being made for the great Olympic games."

JOE LUCAS ON
HACK DRIVERS

Joe Lucas is indignant about the reference to the Bethel street hackstand as a "notorious hackstand" which was made in a local paper yesterday.

"I control the Bethel street hackstand," said Lucas, "and I have twelve respectable drivers. Farther up the street are five other hackmen who are always getting into trouble with the police and who continually conspire to do me up. It is these drivers who are violating the white slave act, not the drivers on the real Bethel street stand, which maintains only sober, intelligent hackmen and clean hacks."

WILSON IN CABINET

FIFTEEN YEARS.
WASHINGTON, D. C., March 4.—James Wilson, secretary of agriculture, today broke all records for continuous service in presidential cabinets. He has served fifteen years. The longest previous term of a cabinet officer was credited to Albert Gallatin, who was secretary of the treasury from 1801 to 1813. Mr. Wilson was appointed by President McKinley in 1897.
